

## AAISdirect helps you get the full value of your AAIS affiliation

### ■ You get fast, easy access to all product information

- Forms
- Manuals
- Bulletins
- Rating information in Excel and XML data sets
- Rating worksheets
- Sample declarations
- Sample disclosures
- *State Filings Guide*
- Educational materials

... and more!

### ■ Plus, you get these value-added services

#### “Risk Meter” risk mapping service

This service of CDS Business Mapping provides more than 30 categories of geographic information related to hazards at a location. Among other things, Risk Meter can be used to validate the distance of an insured location from a fire department, a determining factor in the application of AAIS simplified fire protection definitions. (For use with risks written on AAIS programs.)

#### Valuation applications from e2Value

Companies and agents can develop building property valuations quickly and systematically by accessing the “Residential” and “Farm & Ranch Estimator” property valuation applications developed by e2Value, Inc. (Service is limited to companies with affiliations for personal and/or farm property lines.)

Forms can be downloaded as a Microsoft® Word or PDF document.

*“We have been using the AAISdirect service, the e2Value software, the online access to the forms and the web teleconferences. We are very happy with the service and feel that it enhances our development efforts in many ways.”*

— Kari L. Dickenscheidt, American Equine Insurance Group

#### Get AAISdirect.

- It’s an electronic filing system.
- It’s a product development resource.
- It’s a better way of communicating.
- It’s a better way of doing business.*

*“AAISdirect is the best expenditure we ever made. I use it to check policy language and update files, and it now takes me half the time I used to spend preparing and filing a manual. I simply download the AAIS version in Microsoft®Word, customize it, and produce a finished manual.”*

— Matthew Schnader, Reamstown Mutual Ins. Co.
