OKLAHOMA TERRORISM EXCLUSION ENDORSEMENTS REVISED

Terrorism exclusion endorsements that do not contain an ensuing fire loss exception have been filed, with a proposed effective date of **December 15, 2003**, as replacements for the terrorism exclusion endorsements that are currently on file in Oklahoma. In addition, several of the terrorism rule and rating information manual supplement pages have been updated in order to reflect the change in endorsements.

BACKGROUND

Effective November 1, 2003, the enactment of House Bill 1273 amends section 4803 F. of 36 O. S. 2001 by granting the Insurance Commissioner the authority to approve policy forms which contain terms and conditions that are less comprehensive in scope than those of the standard fire policy.

In response to this change, AAIS has resubmitted, for all filed Commercial Lines programs, terrorism exclusions that do not contain an exception for fire-following loss.

CHANGES

Tables A, B, and C that follow show the programs in which endorsements are being replaced and manual supplement pages are being changed.

NOTE: The only programs in which endorsement replacements are needed are those in which property coverage is provided.

Replacement endorsements have not yet been submitted for the Farm Properties and Farmowners programs. However, a separate filing will be submitted to address not only the standard fire policy exemption, but also the eligibility clarifications cited in the final guidelines issued by the Department of the Treasury on July 7, 2003, with respect to the Terrorism Risk Insurance Act of 2002 (TRIA).

The new endorsements differ from the current endorsements only to the extent that the Terrorism Exclusion present in each new endorsement does not contain a fire exception. A copy of each certified terrorism exclusion endorsement listed in Table A is available on our public web site, at <http://www.aaionline.com/terrorism/newrules.html>, as an attachment to this Bulletin. A copy of each non-certified terrorism exclusion endorsement listed in Table B is also available on our public web site, at <http://www.aaionline.com/terrorism/newrules.html>, as an attachment to Bulletin 02-0550.

The revised Rule pages differ from the current Rule pages only to the extent that no mention of the standard fire policy is made, and the endorsement numbers shown for each program, other than Farmowners and Farm Properties, have been updated to reference exclusion endorsements that do not contain a Fire Exception.

The revised Rating Information page differs from the current Rating Information page only to the extent that the factors shown for Fire-Following Coverage, that previously was required by statute to be provided, have been deleted from the table.
