PROGRAM ADMINISTRATORS

For Program Administrators looking to expand into new lines of business, geographies or specialties with new, innovative or integrated programs for their customers, AAIS provides a modern, flexible, scalable and easy-to-use program development and delivery platform. Our industry-leading programs offer efficiency, ease-of-use, and flexibility along with ready-to-use modern technology to put you in control of the relationship and customer experience.

For **MGAs/Program Administrators**, AAIS Membership provides unique benefits:

- A dedicated AAIS Advisor to define and deliver success and ensure your Membership exceeds expectations.
- Member Access to the AAIS's proprietary online library, with Forms, Underwriting Rules, Rating Plans and Loss-Cost information including compliance, development and operational insights for dozens of countrywide and regionalized programs.
- Reliable, accessible technology, expertise and information, guided by custom success plans to meet your objectives.
- A community of carriers, reinsurers, implementation partners, knowledge resources, and more, to complete your offering.
 - NOTE: Programs with substantial or challenging modifications may require additional time and effort by the AAIS Compliance Team, for a modest fee.

AAIS is a reliable, affordable, accessible partner with resources, tools and expertise aligned with your strategic goal to grow customer relationships with tailored programs and a progressive customer experience.

Hi-Tech Delivery

- A 'Delivery Ecosystem' of tools, technology and resources for successful, modern customer experience.
- Access to AAIS experts equipped with the latest technology, information and infrastructure.
- Consulting services for program and operational development.
- 24/7/365 access to AAISdirect.com and the AAIS Program Catalog, with rates, rules, and forms for all of AAIS programs.
- The AAIS Underwriting Platform, a centralized, flexible, cost-effective cloud-based application for managing a company's product line.

Member Focused Advisory Solutions

SPEED TO MARKET...

Superior Service Supporting Member Growth

AAIS solutions are supported by a modern infrastructure, advanced technologies and a team of experienced and dedicated AAIS Advisors committed to delivering superior service...a hallmark of the AAIS approach.

Compliance, Filing and Government Affairs

All AAIS programs are supported by a team of lawyers, government affairs and product compliance specialists dedicated to monitoring laws and regulations impacting forms and rates. Members gain confidence knowing AAIS forms and manuals are kept up-to-date and fully compliant with the latest laws and regulations.

Statistical Reporting Services

For decades, AAIS has been a licensed statistical agent in 51 jurisdictions for all P&C lines, collecting data that helps Members meet regulatory statistical reporting responsibilities. Data reported to AAIS supports loss cost development and ratemaking that aids in the development of new products. AAIS statistical reporting services are included in Association Membership agreements and earn Members Preferred Pricing on their AAIS program affiliations (forms, manual rules, and rating info).

Actuarial Advice and Counsel

AAIS programs are fueled by our accredited actuarial specialists with the data, expertise, and tools to deliver credible, refined rating information. The AAIS actuarial team provides valuable counsel to Members' actuarial operations, particularly when considering new markets or exploring new rating variables.

Stride Insurance Solutions

Stride integrates the next generation capabilities of AAIS with advanced insurance technologies and support to deliver customized, modern programs with advanced infrastructure. The Stride team collaborates with Partners to develop unique solutions only offered by AAIS. Stride is dedicated to helping Members leverage emerging technologies and opportunities to enhance efficiency and promote growth.

Hi-Tech Delivery (cont.)

- Program automation, integration and experience technology
 - Online rating tool
 - Integrated services (e.g. security monitoring, specialty business support, etc.)
